# The Lifestyle . . .

*One of our favorite cows!*

*began several years ago as we worked to make ends meet. Today it has turned into a fast-paced , well traveled livelihood we enjoy. Business is wide open from clipping show cattle for all kind of events to shearing cows for a sale.*

*Along with the clipping we have had the good fortune of working purebred sales and traveling to many of the nations largest livestock shows. To further our services we took up livestock photography and ad design.*

*To benefit both purebred and commercial producers alike we offer freeze and fire branding. We are amongst good stock and great people daily so if we can assist you in anyway let us know.*

*Also in our spare time we partake in breeding cattle of our own. Our program revolves around a busy schedule ; therefore, we strive to breed practical cattle. We attempt to make the best females we can and hope their brothers will be pretty good. Developing a program takes many years and many small strides but we hope for advancement with each new calf crop. Thank you to those who keep us busy and to our friends whom we endear.*

*The people in this business make the LIFESTYLE what it is ...*

## Requirements for Calves to be GCCPA Tagged

It's important that all members know the requirements for a calf to be tagged with the official GCCPA eartag. The rules are listed below:

1. Calves must be bred and born on a member's farm, or
2. Owned and born on other premises (example – you own a cow that is at an ET center in (Georgia or another state), or
3. Calves are eligible from the purchase of bred cows or frozen embryos only if bred cows or embryos are purchased from another GCCPA member, and the new owner shall be listed as Breeder on the GCCPA point sheet.
4. Only dues paying members are eligible to purchase tags. (Exhibitors can not pay dues and buy tags for an individual they purchase the calf from.)

## Georgia Club Calf Producers Association
